THE ENERGY REPORT

THE GOLD REPORT

THE CRITICAL METALS REPORT

THE LIFE SCIENCES REPORT

The following is an excerpt from the Streetwise Reports interview with Byron King, editor of the *Outstanding Investments* and *Energy & Scarcity Investor* newsletters, "[Byron King's Shocking 2013 Predictions.](#)"

"[Royal Dutch Shell Plc](#) is moving to gas. . . It bears watching. These big companies have deep pockets, and will have to work their way through this storm the same as everyone else. The good news is that the big guys can afford to take risks that small companies, or even large independents, can't take to drill gas plays and test new technology that might change those decline rates from being so steep."

To read the entire interview and King's comments on other companies, click [here](#).
